

	<p><b>Flu Shot Reminder</b></p> <p>It's Not Too Late to Get the Flu Shot. We are in the midst of flu season and a flu vaccine is still the best way to prevent infection and the complications associated with the flu. But re-vaccination is necessary each year because the flu viruses change each year. Encourage your Medicare patients who haven't already done so to get their annual flu shot and don't forget to immunize yourself and your staff. <b>Protect yourself, your patients, and your family and friends. Get Your Flu Shot. It's Not Too Late!</b> Remember - Influenza vaccination <u>is</u> a covered Part B benefit. Note that influenza vaccine is NOT a Part D covered drug.
